Covers shall be installed as per KASI requirements:

See Appendix 2 of KASI's Warranty Extension Request Conditions - Hatch Installation Requirements. www.kasi.cz

The covers shall be used and loaded only after the construction is fully completed or the covers are completely installed, not during the construction.

In particular, this is to prevent the loading of covers with construction equipment or the temporary use of partially installed hatches in an unfinished building.

The extended guarantee will be confirmed in writing on the basis of an inspection after completion of the construction.

Contact a KASI technician prior to installation:
