

WARRANTY CONDITIONS FOR MANHOLE COVERS, DRAINAGE GRATES AND STREET GUTTERS KASI

The warranty for manhole covers, drainage grates and street gullies is only accepted if the following conditions are met:

1. The products must be installed in accordance with the KASI manhole cover, grating and street gutter installation technology guidelines:

The requirements are available on the website www.kasi.cz in the "Downloads" section.

2. Products must be installed using only non-resilient materials

Manholes and grates shall be built on concrete or metal leveling elements bonded with non-elastic materials such as quick-set mortar.

They cannot be mounted on flexible elements such as rubber or plastic levelling rings.

3. The products must be used and loaded only after the construction is complete or the hatches are fully installed, not during the construction.

In particular, this is to avoid the loading of the products by construction equipment or the temporary use of partially installed hatches in an unfinished building.

4. The warranty for KASI hatches is valid after the above conditions have been met (but not more than 60 months from the date of manufacture).
